Affordable Housing Resources In Santa Cruz County

Although Santa Cruz County is one of the least affordable places to live in the United States, local government and non-profit agencies are working actively to increase the availability of affordable rental and ownership housing. This brochure lists the various housing programs that are funded and operated by the County of Santa Cruz, the Santa Cruz County Housing Authority, and each of the cities in Santa Cruz County. It also lists the names, addresses, and phone numbers of the non-profit housing developers that build and operate affordable housing within the county. Most, if not all, of these programs have income limits and/or other eligibility criteria. Check with the program sponsors to learn whether you are eligible to participate in each program:
